

# Community Parent Training Series

## "Parenting For Success"

Sponsored by John DeVore and Julie Hitchcock

This unique community event (Parent Training Series) has been developed and will be presented by a team of 10 educational experts from the Sweetwater Union High School District and the Chula Vista Elementary School District. Each session is purposefully planned to provide parents the knowledge and skills necessary to meet the parent training goal:

**Goal:** To provide every parent the skills and resources necessary to help them significantly improve their child's learning progress and ensure their child graduates from high school prepared for success in college or the world of work.

**Note:** This training has been designed into a four part series and it is important for parents who attend to commit to being present for each session.
